

Introduction

Smartpie is not just a product; it's an attempt to make education more engaging, fun and accessible.

The vision of Smartpie is to help students discover interests in the early age so that they can be more informed about various things in the world. This will also help them take better career decisions in future.

We wish to connect all the schools globally so that collaborative learning can happen within the school and between the schools.

The mission is to take functioning of schools and the way students spend their day to a next level using the power of internet and technology.

Smartpie is our medium to enter into the world of education. We in future aim to get into the grass root of our education system, to change and improve it by innovative and affordable ideas.

Deck

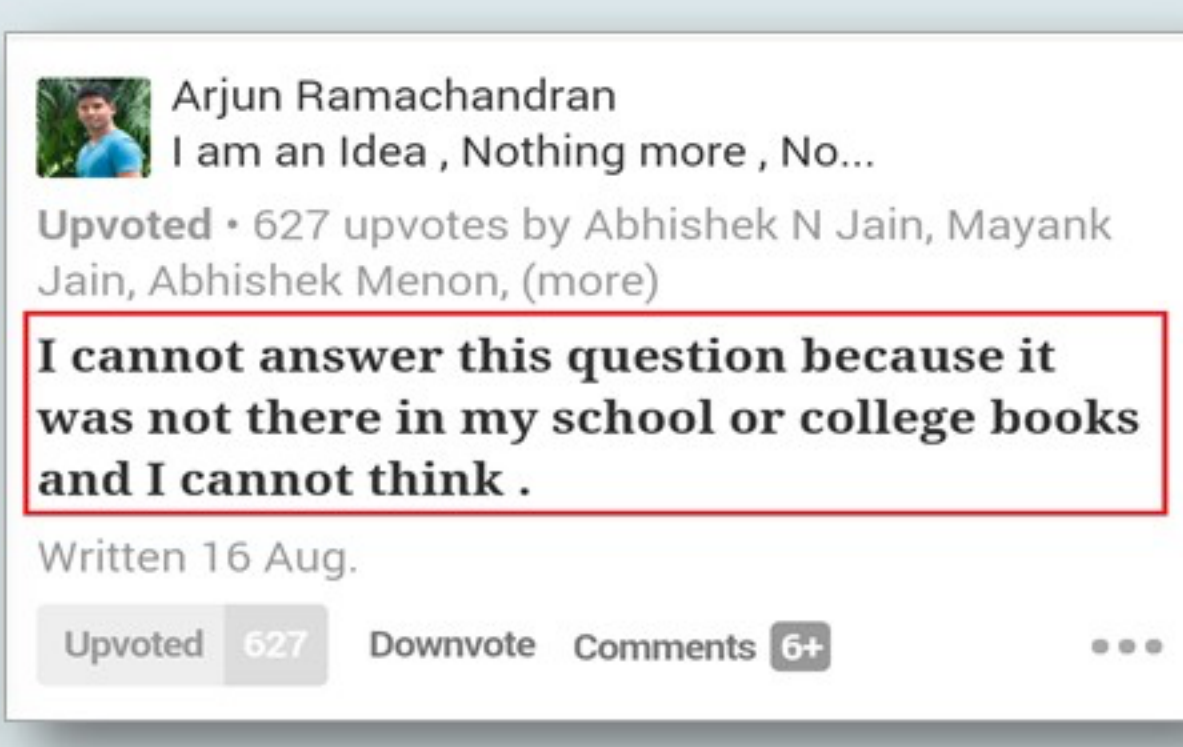

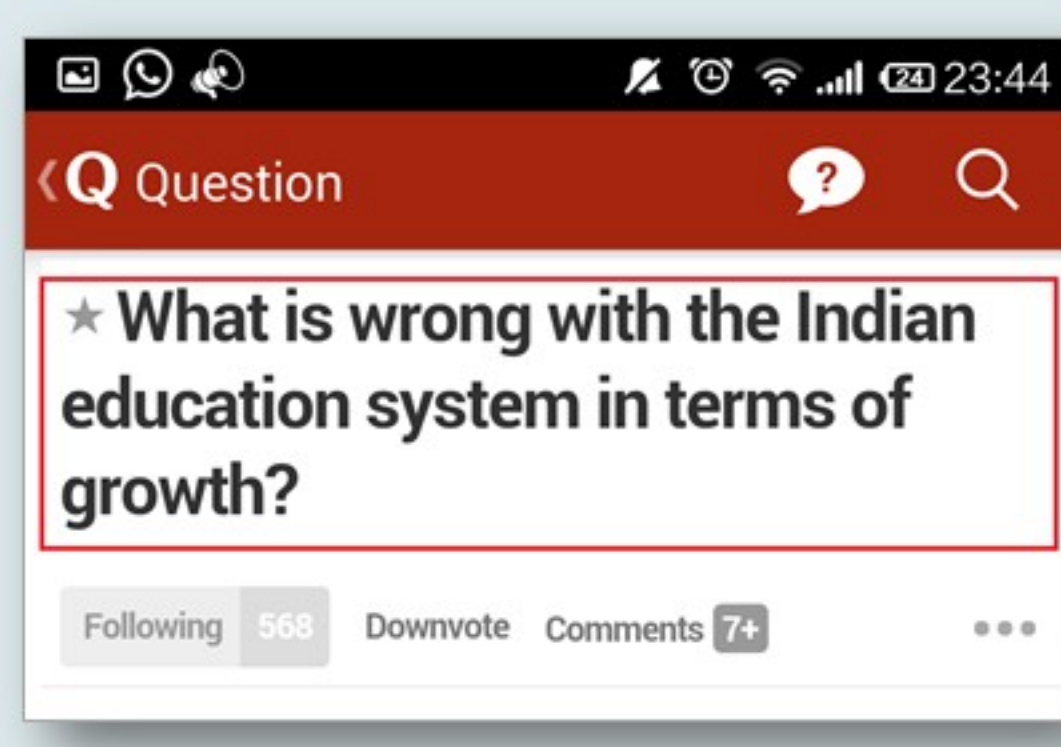

Below is the deck to know more about Smartpie

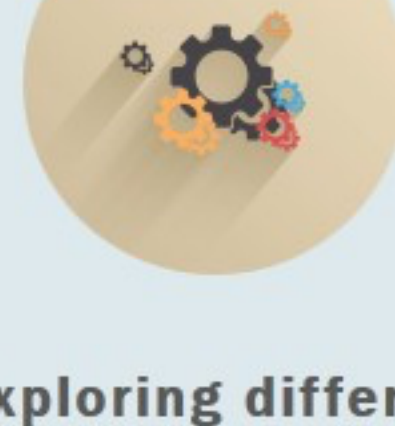

Education is learning what you didn't even know you didn't know

- Daniel Boorstin

IS THERE A PROBLEM?

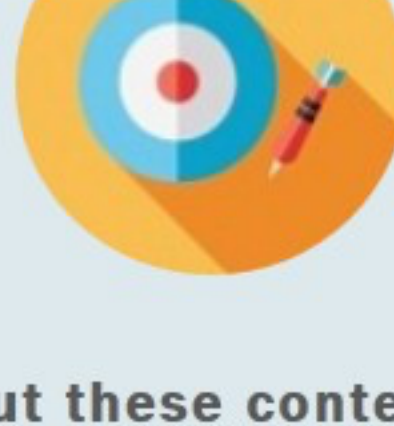

WHAT COULD BE THE PROBLEM?

Exploring different dimension of subject

Plethora of content available to learn from

But these contents aren't reaching the students easily

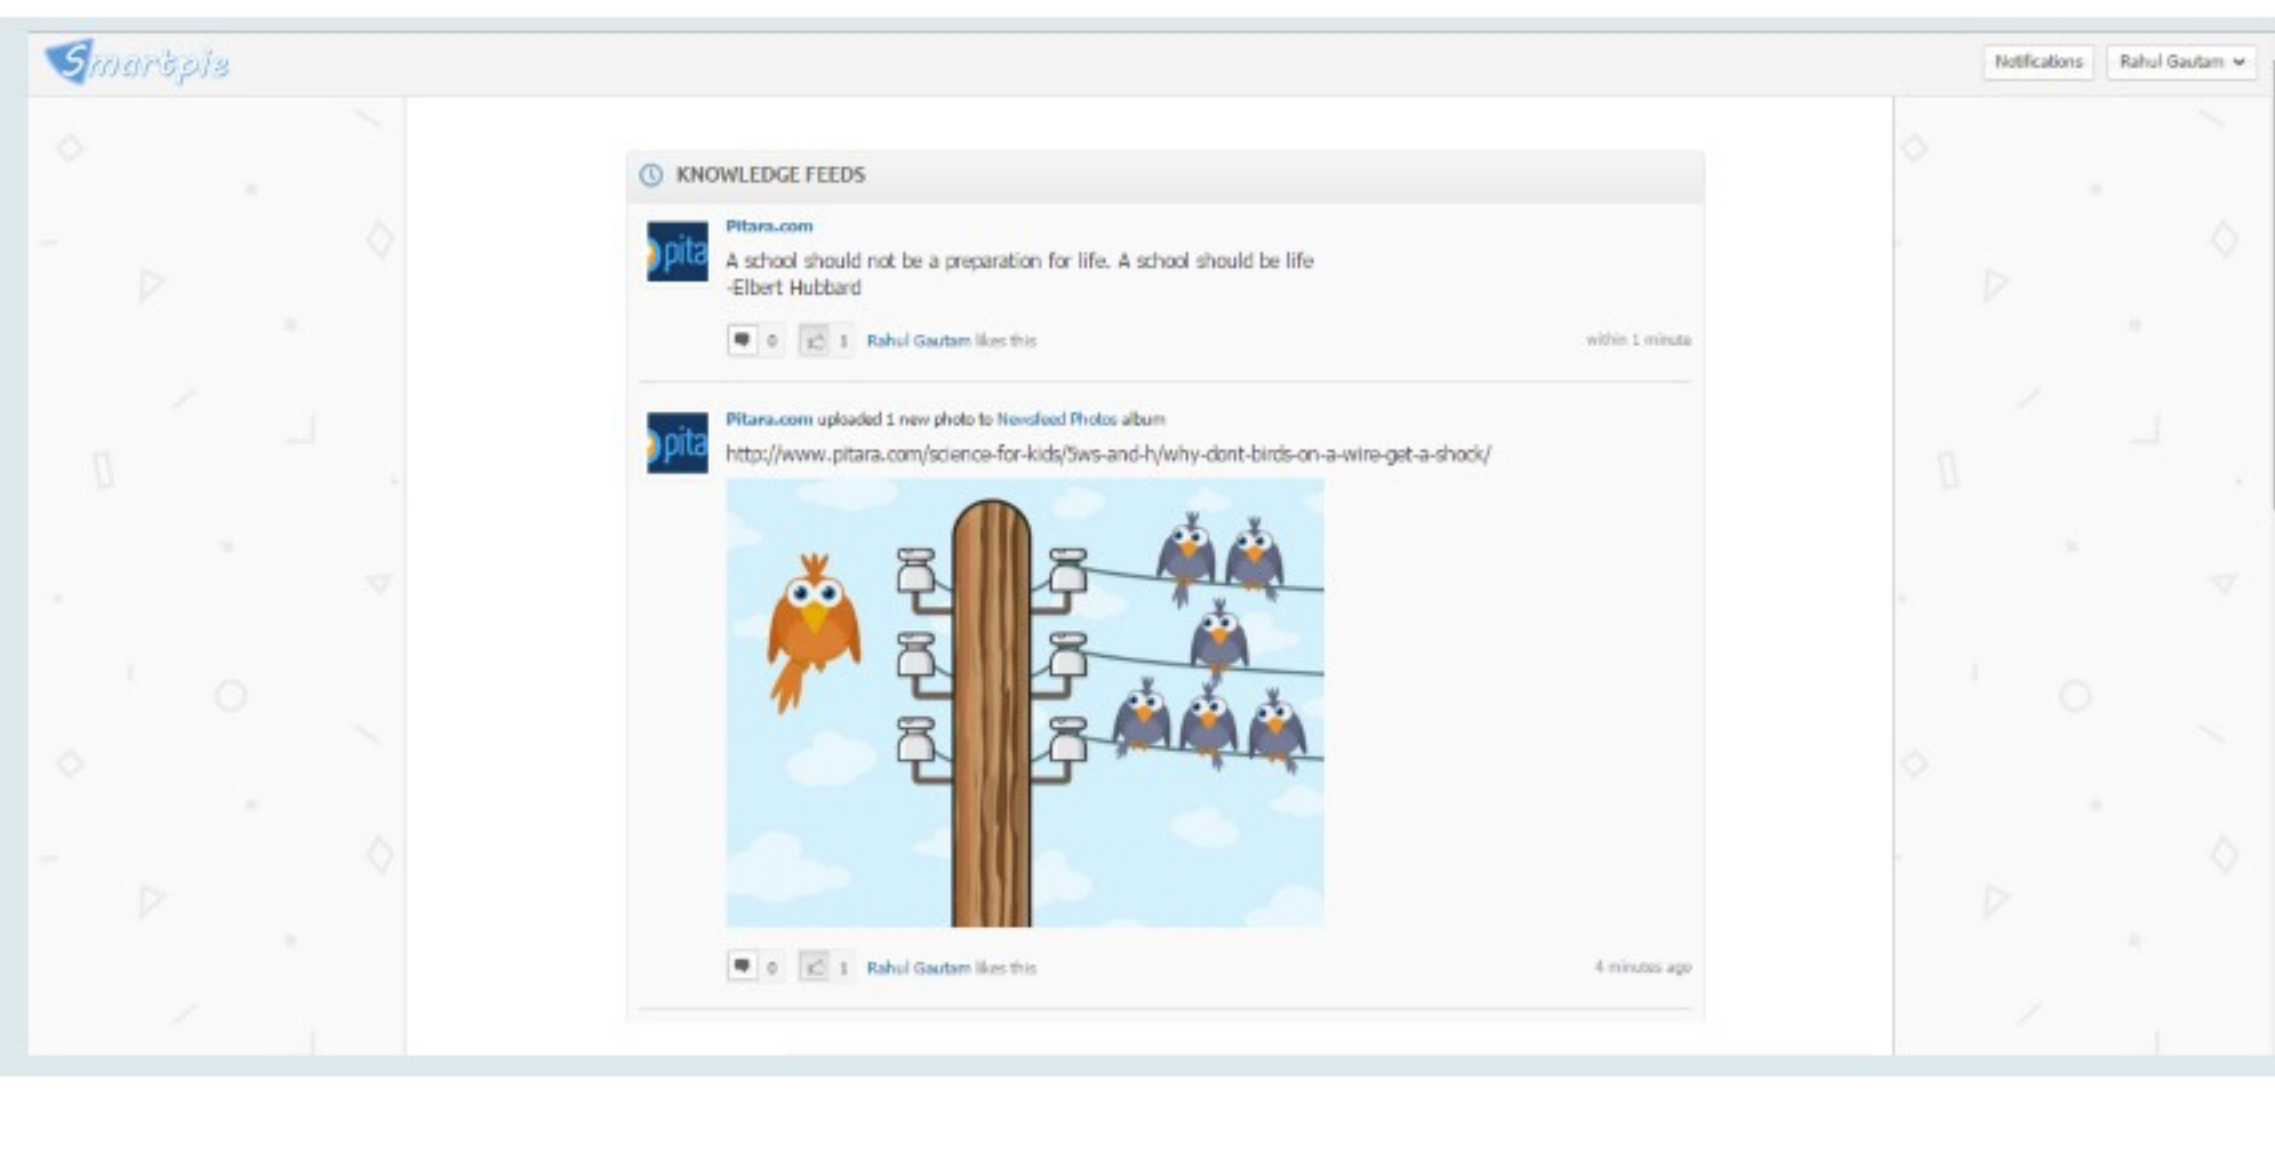

Less collaboration between students while learning

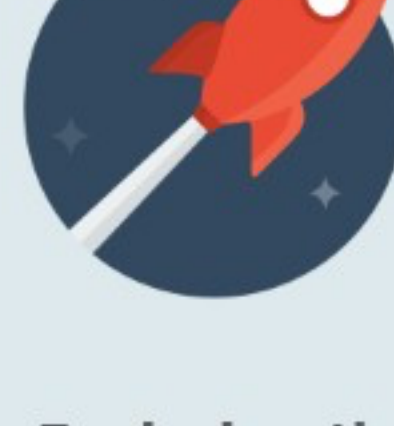

HOW CAN WE SOLVE IT?

PRODUCT

WHAT CAN THE IMPACT BE?

Exploring the subjects in a different way

Discovering new interests and broader knowledge

Cultivating habit of learning new things everyday

Collaborating with people sharing similar interests

PLAN

Build a strong user base

Curate content manually

Build and show credibility

ANY QUESTIONS?

Lets make education more fun and accessible

Lets Smartpie
